Address: Pune

Mob: +918830090191

Email Id: rakhideshmukh02@gmail.com

OBJECTIVE

Experienced Frontend Developer with a strong passion for crafting user-centric web experiences. Proficient in React.js, HTML5, CSS3, and JavaScript (ES6+), I specialize in creating responsive, cross-browser compatible, and visually appealing interfaces. Dedicated to leveraging component-based architecture and performance optimization to deliver high-quality, efficient, and engaging web applications.

EXPERIENCE

React JS Developer at Profcyma Solutions Pvt. Ltd

01 July 2022

As a React JS Developer with 1years of experience, I have specialized in React.js for building responsive, dynamic, and high-performance web applications. My work focuses on component-based architecture, seamless API integration, and state management using hooks like useState, useEffect, and custom hooks.

Key Responsibilities:

- 1.Translated responsive designs and high-fidelity wireframes into pixel-perfect, cross-browser compatible code using HTML5, CSS3 (Flexbox, Grid), and JavaScript.
- 2.Implemented component-based architecture for scalable and maintainable codebases.
3. Implemented React Router for seamless navigation and routing within single-page applications.
- 4.Participated in code reviews to maintain code quality and shared best practices within the team.
- 5.Applied responsive web design to create adaptive layouts using CSS3 (Flexbox, Grid) and media queries.
- 6.Worked with design systems and component libraries like Material-UI or Bootstrap to maintain consistency and streamline development.

PROJECT

○ Project 1 Manasa-Nutri - Essential Oils E-Commerce Website

Role: Frontend Developer

Technologies Used: React JS

Project Link: <https://manasa.profcymabackend.com/>

Overview:

Developed a dynamic e-commerce platform specializing in the sale of essential oils derived from flowers. The project focused on delivering a responsive and user-friendly interface with comprehensive e-commerce functionalities.

Key Contributions:

- **Frontend Development:** Created a fully responsive frontend using React.js, ensuring the application is intuitive and user-friendly.
- **Component-Based Architecture:** Developed reusable components to improve scalability and maintainability, making it easier to add new features.
- **E-Commerce Features:** Implemented essential e-commerce functionalities including wishlist management, add-to-cart, and payment processing, ensuring a seamless shopping experience.

INTERNSHIP

React JS Developer at Profcyma Solutions Pvt. Ltd

Duration: [20 Feb 2022] – [30 June 2022] (5 months)

Key Responsibilities:

- Developed and maintained responsive web applications using React.js.
- Collaborated with team members to design and implement UI components.
- Participated in code reviews and provided constructive feedback to peers.

Projects:

Hostel Management Website

Role: Frontend Developer

Technologies Used: React JS

Duration: [15 Days]

Description:

- **Overview:** Developed the frontend of a live website for a hostel management system. The project aimed to provide an online platform for booking and managing hostel accommodations.
- **Key Contributions:**
 - Designed and implemented user-friendly interfaces for browsing rooms, managing bookings, and viewing payment history.
 - Focused on performance optimization to ensure quick loading times and a smooth user experience.
- **Outcome:** The project is currently live and successfully facilitates hostel bookings and management, contributing to the company's operational efficiency.

EDUCATION

| Year | Degree | Institute | CGPA/% |
|-----------|----------------------|---|--------|
| 2017-2022 | Computer Engineering | College of Engineering Technology Akola | 8.18 |
| 2017 | Class XII | Mauli Junior College | 58.42 |
| 2015 | Class X | Sant Gajanan Maharaj English School | 68.00 |
